DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 22, 2005 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claim 1 is that the prior art of record does not teach the steps of developing the undeveloped image on the first printing plate material on the plate cylinder by supplying dampening water and printing ink to the first printing material for printing and carrying out printing by supplying dampening water and printing ink to the developed first printing plate with the dampening roller and the inking roller as argued by applicant (the Remarks, page 9, first and second paragraphs).

The limitations in the claim are not rendered obvious by any proper combination of the prior art known to the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
